REPLY TO
ATTN OF: HW-113

Kenneth Rone
3801 East Marginal Way South
Seattle, Washington 98134

Dear Mr. Rone:

The Environmental Protection Agency (EPA), through our contractor, Ecology and Environment (E&E), has completed the site inspection of the Ash Grove Cement site. A copy of the subject report is enclosed.

Based on this inspection and other pertinent information, EPA finds it appropriate to defer to state authority for further consideration. Accordingly, EPA does not anticipate further investigation under Superfund. E&E's recommendations, with which EPA concurs, are outlined on page 4 of this report.

If you have questions regarding report content or planned actions, I may be reached at (206) 442-7215.

Sincerely,

Bill Glasser
